

MATH 084: Elementary Algebra Refresher

PreFall 2009 End of Course Survey Results PreFall 2009

(8 students completed the course and survey)

1. Was this course what you expected? Did it meet your needs?

- Yes, the course was very much what I had anticipated, and it absolutely did meet my needs.
- Yes it was an excellent refresher.
- Yes. Yes.
- Yes, very much. Thanks.
- Yes, this course was what I expected and though it was fast it was just what I needed to jog my memory.
- Yes, it helped repair some rusty math skills I had.
- It was more than I imagined. I thought it was great and would recommend for any students looking to refresh their skills.
- This course was a little more than I expected, but it was very informative and helpful. There was more homework than I expected.

2. Are you planning to retake the COMPASS test in the next week? If so, what math class are you hoping to place/enroll in? If not, why not?

- No, I am not going to retake the COMPASS test, because its been over 20 years since I last attended school and I do not want to be overwhelmed.
- No, although I have had the condensed version of MATH 85, I still feel like I need it drilled in more. However, I am glad I participated in MATH 84 because now I will have more confidence when taking MATH 85.
- Yes, 95 if able – and am waiting to see what COMPASS results are. Ultimately, I want a good foundation.
- Yes, maybe next week. MATH 85 or 95, whichever I can.
- Yes, possibly today.
- No, I already took 85 awhile back, I just needed some guided practice.
- Yes, I would still like to get into MATH 95. I want to major in that, and I think with a bit more brushing up I can do it.
- I am planning to take the COMPASS test within the next 2 days and am hoping to place into MATH 95.

3. MATH 084 is a new class at Cascadia in an attempt to better serve our students. Do you have any feedback for us at this time about the precollege math classes?

- I very much enjoyed the class and am very happy that it was offered. For me it has given much needed confidence after such a long period of time away from school.
- I feel that MATH 84 is an important class to have. I has given me the confidence that I need to succeed in future math classes, and that to me is very important.
- No.
- Very helpful for me to prepare for better understanding of the material.
- No, great work so far.
- I say keep 'em around, I can't be the only one who needs assistance like this.
- It is a wonderful program – great class.
- I thought it was very helpful and the information was presented in a very comprehensive way despite the short class schedule. I did feel that there were a lot of questions per online assignments and that made it difficult to stay on top of the assignments and finish them.
